

West Cairngorms Access Project Officer

Fixed contract to March 2011 initially (£23,833 – £25,289)

With extension likely subject to funding

An opportunity has arisen to join the Cairngorms Outdoors Access Trust to deliver outdoors access projects in the West Cairngorms. The work will be challenging and exciting, with a diverse range of project work to be carried out. Contracts are to be delivered to upgrade, repair and build new paths, develop interpretation projects, and develop standards in access infrastructure. The post will initially be based in Aviemore.

Applicants should have sound technical experience of path construction project work, knowledge of the relevant health, safety and environment statutory framework and experience of working with community groups. The post-holder will be expected to work closely with community groups, landowners, site managers and other stakeholders so good interpersonal skills will be required. Some weekend and evening work will be required from time to time.
